MW = Megawatt, kW = Kilowatt, Kilowatt peak, = Square metre

FDI in NES

2450. SHRI K. RAMA MOHANA RAO:

SHRIMATI N.P. DURGA: Will the Minister of NON-CONVENTIONAL ENERGY SOURCES be pleased to state:

(a) whether it is fact that the Ministry has proposed 100 per cent FDI through automatic route in the Non-Conventional Energy sector;

(b) the total FDI so far received in the Non-Conventional Energy sector since this sector was opened; year-wise and sector-wise *i.e.* wind, bio-mass, solar etc.

(c) whether there is any policy paper before the Ministry on Non-conventional Energy Sources; and

(d) the present percentage contribution of renewable energy sources such as wind, bio-mass, solar, etc., to the total energy of the country?

THE MINISTER OF STATE OF THE MINISTRY OF NON-CONVENTIONAL ENERGY SOURCES (SHRI VILAS MUTTEMWAR): (a) to (c) As per the existing policy, the non-conventional energy sector is allowed 100 per cent Foreign Direct Investment under the automatic route. Year-wise and sector-wise details of foreign direct investment proposals for foreign equity approved by the Foreign Investment Promotion Board in the non-conventional energy sector from 1991-92 to 2004-05 are given in statement (see below).

(d) Renewable power contributes around 6 per cent (6160 MW) to the total power generating installed capacity in the country, as on 31.3.2005. As much as 18 per cent, *i.e.*, 2643 MW of the additional power generating installed capacity that has been commissioned during the first 3 years of the 10th Plan (2002-2005) has come from renewables. Of this, 13 per cent (1967 MW) has come from wind power, 3 per cent (407 MW) from bio-power and 2 per cent (267 MW) from small-hydro power.

Statement

Year-wise and sector-wise details of foreign direct investment proposals for foreign equity approved by the Foreign Investment Promotion Board in the non-conventional energy sector from 1991-92 to 2004-05

(Rs. in crore;
